PARTNERS

DAMAC · EMAAR · DUBAI PROPERTIES · ALHABTOOR

Technologies we used.

ADOBE XD	FLUTTER	AWS	MYSQL	NODEJS	IOS	REACT

Overview.

Allegiance, a real estate platform with the mission to make property-related transactions as easy as ever before. It provides the user with an extensive real estate market of properties to buy or rent, gives access to all types of details, specifications and a lot of advanced search features within a single platform. It operates in Dubai with industry leaders such as Damac, Emaar, Dubai Properties, Sobha and many more.

THE OPPORTUNITY.

A real estate firm that helps local people and visitors **to** sell, lease, rent and buy properties.

Allegiance
REAL ESTATE

An all in one **agency profile** page

On a single profile page, agency members can view their personal information, sales dashboard, leads, agents, and other relevant information.

Detail page of selected **services**

When a user selects a property, a details page appears with information for the agent about the property's features, specifications, and amenities.

Detailed information

The detailed information screen includes services such as sales negotiations, property financing, investment advisory, end-to-end services for landlords, property improvements, featured projects, and a list of their partners.

Admin panel that help users focus on the functionality, content and managment of the mobile app

Dashboard

The dashboard includes a comprehensive overview of data and things like key performance indicators (KPIs)s or other important business metrics that stakeholders need to see and understand at a glance.

Unit Management

All necessary property information, such as the name of the property, its location, the builder, its price, and many other things, are included in unit management. The property can be filtered by admin members.

Add new unit

Admin members can add new property details by entering critical input fields such as the unit's name, price, location, property images, and so on.

Users information

The data of agents, agency owners, and admins can be viewed by admin members.

Sending **push notifications** to users from the admin panel
